5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Water spray, Alcohol resistance, Powder, Carbon dioxide

Specifically dangerous hazards

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Extinguishing method

Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Remove movable containers if safe to do so.

Protection of fire-fighters

Use personal protective equipment as required

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

- Use personal protective equipment. Keep people away from and upwind of spill/leak.
- Remove ignition source around product.

Environmental precautions

- Prevent product from entering drains.

Methods and materials for containment and cleaning up

- Do not touch spilled material without suitable protection. After material is completely picked up, wash the spill site with soap and water and ventilate the area. Put all wastes in a plastic bag for disposal and seal it tightly. Remove, clean, or dispose of contaminated clothing.
